Stony's Prize Marksman.

Our fellow-townsmen, Mr O Hoffman, has been putting Stony Plain on the rifle shooting map thru his exploits at Calgary, in the competitions there, last week, under the auspices of Alberta Provincial Rifle Ass'n.

The Stony Plain marksman won the Tenth, Batt. match, making 48 out of a possible 50, with 10 shots at the 600 yd. range.

On the 500-yard range of the main competition Mr Otto made a perfect score of 35 out of a 35 possible.

Otto also won the silver medal in the Burns match; and was 6th in the Ottawa Aggregate. This latter honor means a trip next September to the Rockcliffe Ranges, near Ottawa City, where he will compete against the best shots in Canada, the contests at that point being held under the auspices of the Dominion Rifle Ass'n.

Assemblyman MacLeod Pays Stony Plain a Visit.

Mr Donald MacLeod, M.L.A., honored our town with a visit on Friday morning last, while on his way to participate in the picnic on the Summerfield farm, Brightbank, of the united U. F. A. Locals of Hansen's Corners and Brightbank. Mr MacLeod was accompanied by Mr Geo. Beverington, the well known authority on banking.

Our worthy Assemblyman had started on a series of meetings at various places, in this Constituency, but the unreliable weather conditions and, at times, impassable roads for motor cars, have interfered somewhat with the carrying out of his scheduled program.

Edmonton Beach.

As intimated in our last issue, Walther League members held their fifth annual summer camp conference at Edmonton Beach, finishing up their business Saturday night. Members from Bruderheim, Fort Sask'n, Edmonton, Wetaskiwin and Calgary attended. Speakers at the Conference were Prof Guebert, Rev H J Boettcher, Rev Hy Kuring, Rev H Frey; Rev B F Behrens, Beaver Hills; and Rev C Thies, director of missions of the Lutheran Missouri Synod.

Golf Gossip.

Great interest in being taken by the public in the Knock Out Tournament played on the local course. Some 23 pairs were engaged in the contest before the elimination trials were finished. The contest is narrowing down to the good standard players, altho, even among these, there has been a slight reversal of form from what was expected.

The 40th Anniversary of

"SALADA TEA"

Finest quality for 40 years has built the largest sales in North America.

Ourselves.

Bruce Barton, the well known author and magazine writer, has proposed the toast: "To the only folks who can make us or break us—to Ourselves." And he quotes the saying of Carlyle: "The world's being saved will not save us; nor the world's being lost destroy us. We should look to ourselves."

The truth of these statements, differently worded but meaning exactly the same thing, cannot be gainsaid. The biggest factor in the world now, as always, is the individual. No man is actually down and out, defeated, unless and until he himself admits defeat. Furthermore, more people are destroyed by prosperity than by adversity; more people call upon the realities of life when the gods are showing them with riches or other gifts than when they are faced with difficulties and confronted with seemingly unsolvable problems.

It is then people begin to call upon latent powers they possess. William James, in his essay on "Vital Reserves," pointed out that underneath our daily store of strength and courage, all of us have reservoirs that are tapped only by emergency. We are all able, under the test, to surprise ourselves with an unsuspected capacity to be and do more.

It is that capacity which is our greatest asset. It is our hope in the present and for the future. It is ours to employ now.

The writer is acquainted with a man resident in one of our prairie cities who lost his position over a year ago. He has a bed-ridden wife not only to support but to care for. He is not an educated man, and prior to losing his position received only a small salary. Did he despair, and call upon the Government to put him "on relief"? Not a bit of it! He called upon his own reserves of strength. Although he had no experience, he got a job painting a garage. This led to other small painting jobs. Then at Christmas time he got work soliciting orders on a commission basis. When spring came he hunted up garden work to do. This he keeps going. He is seldom idle because he is willing to take on any kind of a job, no matter how humble. And when you meet him he always has a new job to tell. He goes whistling on his way, scorning to accept Government or municipal relief, always looking forward to better days that must inevitably come, and in the meantime keeping his head well above water. He is a bigger, better man than ever before; has maintained his self-respect and kept his courage, and, in the days to come, will command a better position than any he might have secured had "hard times" not descended upon him.

This is a very simple illustration of a very ordinary individual. Nevertheless he has and is displaying the spirit of a hero. Yet he possesses nothing that each and every person has not got, namely, a reserve of strength, of courage, of determination, to call upon in times of emergency. But the important thing is—he called those reserves into action. Too many of us fail to do this. We hesitate, we drift, we refuse to use the powers lying latent in us with which we have been endowed. In a word, we have not faith in ourselves, and without that faith anything that others may do for us will fall far short. Such people will come out of the present time of difficulty weaker and less well equipped to take advantage of the opportunities which the future will offer to us.

Let us put ourselves to the test. We have been buffeted about; we may be gasping, but if we are strong of heart and keep on we will get our "second wind." A race is never lost until it is over; we always have a chance to win until the tape at the finishing line is definitely broken. Our success or failure depends, not on the other fellow, but on ourselves.

Muskeg Has Its Use

Possibility It May Be Manufactured Into Wall Board

Muskeg, the moss-like substance that covers thousands of acres of Canada's treeless northern country, has at last found a use. An inquiry recently received by the Board of Trade at The Pas, Manitoba, may lead to a trainload of muskeg being shipped to Brampton, Ontario, for use in the manufacture of wall board.

Sitting in the midst of millions of tons of muskeg, long believed valueless, officials of the board were amazed when they received the letter asking about the possibility of buying a dozen carloads or so. Negotiations are now under way for shipment and the Board of Trade is looking into the possibility of getting a factory to locate there and use the material.

Right Up-To-Date

The new one-franc piece which France is coining shows how modern that country is. "Marlene," as the girl on the coin is called has been given a bob. Until this year she had long hair.

All Her Children Were Troubled With Diarrhoea

Mr. J. J. Bicker, R.R. 1, Enderby, B.C., writes:—

"Last Summer all my children were troubled with diarrhoea, and were so bad I did not know what to do. A friend told me to give them Dr. Fowler's Roseated Wild Strawberry, so I got a bottle, and after a couple of doses you should have seen the change. The children were soon well again, and I am very thankful to your wonderful remedy. I find it the only one that relieves so easily and quickly."

High Tariff Walls

Action Of U.S. Proves a Severe Blow To Canadian Agriculture

The exports from Canada to the United States of principal commodities, such as are produced on Canadian farms, or manufactured directly from such farm products, during the month of May amounted in value to \$500,195, as compared with \$3,237,340 in May, 1930, and \$3,604,898 in May, 1921, according to the Dominion Bureau of Statistics.

The high tariff walls erected by the United States, culminating in the Hawley-Smoot tariff in June, 1930, were a severe blow to Canadian agriculture, making the export to that country of many commodities practically impossible.

During the eleven months ending May, 1932, the export of such commodities to the United States totalled \$3,632,428, as compared with \$4,078,930 in the same period of 1929-30, and \$17,492,982 in the eleven months ending May, 1921.

With a duty of 42 cents per bushel on wheat, the export of Canada's chief agricultural product to the United States declined from \$101,000,000 in eleven months of the crop year 1920-21, to \$2,490,774 in 1931-32. Three cents per pound on beef cattle has caused a drop from \$21,182,824 to \$617,745.

Three dollars per head on sheep brought the export down from \$1,606,215 to \$258. Butter at 14 cents per pound fell from \$2,389,221 to \$145,946, flaxseed at 65 cents per bushel from \$4,763,311 to \$573,709, potatoes at 75 cents per 100 pounds from \$6,557,031 in eleven months of 1929-30 to \$258,419, hay at 85 per cent from \$2,369,295 to \$115,979, etc. Of course, lowered prices have also had some effect upon the values.

Fast Ocean Travel

Canada Now Only Week-End Journey From England

Canada is now only a "week-end's" journey from England," thanks to the record-breaking crossings of the Atlantic by the C.P.'s "Empress of Britain," says Viscount Rothermere, famous British newspaper magnate. Viscount Rothermere declares that the interval between the time the "Empress of Britain," passed Bishop's Rock lighthouse, off the Scilly Islands, and the time she reached the entrance to the Strait of Belle Isle, was only 13 hours and 53 minutes.

"The passage of the north Atlantic was made with only two nights spent out of sight of land," declared Viscount Rothermere's message, "after which the rest of the journey has been through smooth land-locked waters."

Tracherous Police Dogs

Bringing These Animals Into Canada Looks Like Mistake

The Stratford Beacon-Herald in connection with a case of a half of six being bitten in Toronto by a police dog, observes that breeders of dogs are agreed that it was a mistake to bring this dog to Canada. It has not the background and tradition of the Collie, the bulldog, the setter, St. Bernard, Newfoundland or any of the other well-known breeds of dogs to which we are accustomed. The police dog is a wild animal, and treacherous in the sense that he cannot be trusted not to take a bite at any moment. The breeding of these dogs should be discouraged, especially for city life.

Internally and Externally It Is Good.—The crowning property of Dr. Thomas' Electric Oil is that it can be used internally for many complaints, as well as externally. For sore throat, croup, whooping cough, pains in the chest, colic and many kindred ailments it has qualities that are unsurpassed. A bottle of it costs little and there is no loss in always having it at hand.

Evidently Not Known.—The case came before a London coroner the other day of a man who "with an income of nearly \$3,000 a year, had not a friend in the world." It cannot have been generally known that he had an income of nearly \$3,000 a year.

With good management there is still money in farming. Fifty years ago an Ontario farmer paid \$500 for a farm and last week he sold it to a golf syndicate for \$550.

Christie's Arrowroots

Miracle Recorded in Church

Mosaic Panel Depicts Basket Of Bread and Two Fishes

A fourth-century church, built during the reign of the Emperor Constantine the Great, has been uncovered near Tiberias, on the way to Capernaum. This church commemorates the miracle of the loaves and fishes, performed by Jesus on the shores of the Sea of Galilee, and the actual stone said to have figured in the Gospel narrative as the boulder on which He stood has also been found in the centre of the church, where it presumably lay beneath an altar. Behind the stone a wonderfully designed mosaic panel was found depicting in vivid black, red and yellow a basket, several loaves of bread, and two fishes. Although buried beneath dust and rubble for about 1,600 years, and only a stone's-throw from the sea, the mosaic shows no signs of erosion, and the colors are well preserved.

Good Service For Citizens

Toronto Health Department Furnishes Tablets To Purify Water

A notice published in Toronto papers says that free tablets for the purification of water can be obtained from the city health department by any citizen. These tablets are recommended for those going on picnic or on camping trips where there are chances of having to use water of questionable purity. The tablets will purify water and make it fit for drinking in a few minutes.

That is a useful service for any city to give. People who go away and who use water of which they know nothing at all are running risks, and a tablet which will eliminate this risk is a friendly thing and a good travelling companion.

Miller's Worm Powders are sweet and palatable to children, who show no hesitancy in taking them. They will certainly bring worm troubles to an end. They are a strengthening and stimulating medicine, correcting the disorders of digestion that the worms cause and imparting a healthy tone to the system most beneficial to development.

Game Fish In North

Transferring Speckled Trout Along Hudson Bay Railway Line

There is a possibility that game fish of the speckled trout variety, will be transported from the streams along the Hudson Bay Railway to the Clearwater Lake summer resort and other adjacent waters by airplane or tank cars, so the lakes may be stocked for sportmen.

E. H. Stevenson, inspector of fishing, who is in Churchill, is at present engaged in making a survey of the brooks along the bay line. It is his intention to pick out suitable places for the capture and keeping of fish until transferred to other waters.

Douglas' Egyptian Liniment, all ways quick, always certain. Stops bleeding instantly. Cauterizes wounds and prevents blood poisoning. Splendid for muscular rheumatism.

Using Planes in Stampede

Wild Horses To Be Rounded Up From Air

Klamath Falls, Ore., plans the mightiest wild horse drive—from the air. Three airplanes will dip low over the plateaus and passes, set the wild bands running, head them at the turn, and finally stampede 2,000 of them. It is expected, into a gigantic trap corral in the lowlands. The finest stallions and mares, it is promised, will be allowed to escape again to the hills, but most of that vast catch will be slaughtered for chicken feed. The automobile could replace the horse in man's heart, but not even the auto could chase him off the map. Only thunder-birds swooping down from the sky can bring extermination to those wild, fleet, liberty-loving mustangs—can stampede them into poultry bait.—Christian Science Monitor.

An Imposing Monument*

Prince Of Wales Will Dedicate War Memorial In France

One of the most imposing war memorials on French soil is that which is to be dedicated by the Prince of Wales at Thiepval, on the Somme, next March. This monument, which is nearing completion, will be composed of triumphal arches 140 feet high, and only five feet less in breadth. On the pillars will appear the engraved names of 73,367 British officers, N.C.O.'s and men.

Asthma Brings Misery, but Dr. J. D. Kellogg's Asthma Remedy will replace the misery with welcome relief. Inhaled as smoke or vapor it reaches the very innermost recesses of the bronchial passages and soothes them. Restriction passes and easy breathing returns. If you know as well how this remedy would help you as do thousands of grateful users, there would be a package in your home tonight. Try it.

And now it is reported crocodiles do not cry. Next thing we know someone will muster enough courage to declare there is no such thing as a weeping willow.

It is said that more persons disappear from Paris than from any other city in the world. About 520 were reported missing every day in 1931.

Increased Resort To London Of Canadian Borrowers Shows New Financial Trend

Successful flotation of two provincial bond issues in the London market is accepted by New York bankers as a forerunner of increased resort by Canadian borrowers to the London new issues market "during the current period of financial strain and unsettled exchanges," says the New York Herald-Tribune.

The paper refers to the placing of British Columbia's \$1,500,000 of 5s issue in London in May, which was quickly oversubscribed at 99, and of \$1,000,000 Alberta 5s recently at 98 1/2.

"The new trend," says the paper, "is somewhat of a tribute to the London new issues market, which recovered its luster last December."

"It remains the opinion of almost all competent authorities that the Canadian dollar will be eventually re-established on a parity with that of the United States, notwithstanding the present discount of nearly 13 per cent. on Montreal funds in New York. The close inter-relationships of United States and Canadian business interests, and the large aggregate of Canadian goods and services in that country, are considered ample assurance of eventual exchange parity. Nor is it thought that such parity will be difficult to achieve or maintain in a normal world."

"It is accepted here that the Canadian borrowing in London had the tacit approval of the highest banking authorities in England."

"This assumption is justified, since the effect on the exchanges accords with impressions prevalent here in regard to London financial policy. All exchange transactions between Montreal and London are mediated by New York. Canadian borrowing in London means, therefore, that additional pressure will be exerted to depress the British currency unit in terms of the United States dollar, while a favorable effect will be exerted on the Canadian unit in terms of the dollar."

"That London is averse to any substantial rise in sterling has been shown by the establishment of the stabilization fund. The effect of Canadian borrowing in London coincides with the operation of that fund, and it is therefore assumed that encouragement will be given the flotation of Canadian bond issues in London."

To Protect Industry

Ask For Stiffening Of "Empire-Content" Regulations In Britain

British Conservatives want a stiffening of the "Empire-Content" regulations which stipulate the percentage of Empire labor or materials that must be contained in goods entering under the Imperial preferences.

The central council of the National Union of Conservative Associations, meeting in London, with 500 delegates present, unanimously passed a resolution demanding the government take steps to amend the regulations, which at present call for an Empire content of 25 per cent.

The resolution complained that at present United States manufacturers are able to use Canada and the Irish Free State as corridors for the export into Britain of goods made of United States origin, thus evading the general duties and defeating the object for which they were imposed.

"I believe all men are stupid."
"Oh, no. Some remain bachelors!"
—Buen Humor, Madrid.

W. N. U. 1939

Sounds Reasonable

Establishing City Man On Farm Might Not Pay

A prominent citizen of Pennsylvania, realizing that unemployed city workers have no means to establish homesteads in the country, proposes that the State should finance them in the purchase of farms, stocking them with horses, cows, chickens and pigs, and supplying them with tools and seed. That kind of aid might be welcome to a genuine "back-to-the-lander" who had been brought up in the country, but how can it benefit the man who has never known of life outside a city? He couldn't tell a couldn't tell a horse's crupper from its headstall, he is helpless when he seats himself on a milking-stool at a cow's flank, he has the vaguest idea or none at all as to the proper feeding and care of swine. Even the comparatively simple procedure of keeping a flock of poultry in good fettle is Greek to him. You might as well bring a discouraged farmer to the city and expect him to make a success of running a beauty-parlor or a high-class specialty shop.

A CHARMING LITTLE MODEL THIS YOUNG, DAINTY AND VEESATILE

It can be carried out in a great many different fabrics. It all depends upon whether young daughter wishes to wear it for parties, "best" or everyday occasions.

For parties, taffeta, crepe de china or chiffon is dainty in pale blue, pink or daffodil yellow.

For simple "best," a crepe de china print in light navy blue and white is cute idea as sketched. The yoke that merges into caplet sleeve is plain navy crepe. It's most practical.

Style No. 290 is designed for sizes 8, 10, 12 and 14 years. Size 8 requires 1 1/2 yards of 35-inch material with 1/2 yard of 35-inch contrasting.

Red and white polka-dotted dimity with plain white, Nile green linen with yellow and orchid and white checked tulle gingham with plain orchid gingham are striking combinations, truly French.

Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

GEORGE E. CARTER WINS PROMOTION

Succeeds George A. Walton
as General Passenger
Agent C.P.R.

George E. Carter, Assistant General Passenger Agent, Canadian Pacific Railway, is appointed General Passenger Agent Eastern Lines, with headquarters at Montreal, effective July 1st, according to an announcement by R. G. McNeill, Assistant Passenger Traffic Manager. He succeeds the late George A. Walton, who died on May 18. The position of Assistant General Passenger Agent now held by Mr. Carter will not be filled. This decision was reached in view of the need of economy during current business conditions, and reduces the number of Assistant General Passenger Agents to two.

Mr. Carter's promotion to one of the highest positions in the gift of the Passenger Department, follows a career already marked by steady advancement. Mr. Carter entered the service of the Company as a stenographer in the Passenger Department at Saint John, N.B., on September 25, 1914. Shortly thereafter he enlisted for Overseas Service, and was wounded on the Western front with the first Canadian Machine Gun Battalion. He subsequently became a member of the world famous Princess Patricia's, the character of his service with that unit winning him a commission in the Imperial Army, from which he afterwards transferred to the Canadian Corps.

Returning from Overseas at the close of the War, he re-entered the Passenger Department of the Canadian Pacific at Saint John, N.B., and steadily worked his way upward through the ranks. He was transferred to posts of increasing responsibility at Quebec, and in turn was made Chief Clerk in the New York and Montreal offices of the Passenger Department. Mr. Carter also made a special instructional trip to Europe in co-operation with the Canadian Pacific Steamships.

He was made District Passenger Agent at Saint John on December 10, 1928, and Assistant General Passenger Agent in Montreal on May 1st, 1930. He is a member of the Traffic Club of Montreal, and of the Kiwanis Club.

The United States imported 284,000 pounds of garlic last year.

CANADIAN-UNITED STATES PEACE PARK DEDICATED

These photographs were taken when the Waterton-Glacier International Peace Park was dedicated under authority of the Canadian Government and United States Congress as a monument to 117 years of enduring peace and good-will between the two nations. Sir Charles A. Mander of England delivered the dedicatory address at the colorful ceremony and he is seen at the top, center, clasping hands of B. T. Soopen (left), superintendent of Glacier National Park, and H. Knight (right), superintendent of Waterton Lakes National Park. The Peace park idea originated with the Rotary Club of Cardston, Alberta, and was sponsored by the Rotary Clubs of Canada and the United States. The lower photograph shows Chief Two Guns White Calf adopting Lady Mander into the Blackfoot tribe as Princess Shining Star Woman (Ko-Ski-Ki-Na-Su-Ya-Kee), following the ceremonies of dedication.

Eminent French Professor Declares There Is No Such Thing As The Gulf Stream

Hundred Acres Of Roses

Two New Varieties Yearly Is Bohemian Gardener's Record

Blatina, in southwest Bohemia, was but little known to the outside world in pre-war days. Only the antiquarian interested in its late Gothic church, or the tourist informed of its delightful old castle set in the midst of a great and lovely park, would think it worth while to drop off there before passing on to the larger and historically more interesting towns of Pisek and Strakonice. But today it has become the end of an annual summer pilgrimage of nature lovers and others from all parts of central Europe. For there has been established by Jan Boehm a plot of over one hundred acres of roses.

To the horticulturist, Blatina is a constant source of reference, for Jan Boehm is a continuous experimenter, and his results are eagerly followed by experts in this part of Europe. He raises upon the market two new roses each year. Some of his recent introductions include "The Masaryk Jubilee rose," the "Rozens Nemova," named after a famous Czech novelist of the nineteenth century and which is described as "a rose without a thorn," a "Brand-Panepuro" and a "Krasna Uslavanka" rose of two colors. In addition to his own specimens, Boehm grows all kinds of roses, German, French, English and Dutch. The fact that Blatina lies about 1,300 feet above sea level and is exposed to the sharp winds of the Bohemian Forest would have suggested to a less daring man that this was an impossible spot in which to cultivate roses. What has actually happened is that Boehm has produced roses which are of a hardy sort, insured to cold and well able to stand rough climate—Christian Science Monitor.

Exports of beef from Alberta in 1931 totalled 100,000,000 pounds, according to the annual report of the Provincial Livestock Commissioner.

Diamonds never occur in mass formation, always being found in single crystals.

Professor Georges Le Dannois of the French Sea Fisheries Bureau says "there is no such thing as the Gulf Stream." This, says the New York Sun, is his ultimatum. He hopes "that this categorical statement will put an end" to the conjectures inspired by reports concerning the inconstancy of the river in the North Atlantic.

The suppression of the Gulf Stream by the eminent French oceanographer is a hard blow to romance. Nothing like it has been reported since grim science abolished the Sargasso Sea of adventure tales and condemned to death all those interesting colonies of hopelessly pent voyagers that were held captive in its entangling weed. The Sargasso Sea had a flora and a fauna of its own, each as rich as the discoverer's imagination; its human population was as diversified as the circumstances set by the story teller required.

The Sun reminds us that the Gulf Stream plays a different but not less interesting part in story. It is responsible for the cold, wet seasons that afflict the eastern coast of the United States and the northwestern coast of Europe. When strange fish appear, the Gulf Stream brings them; when familiar fish disappear, the Gulf Stream takes them away. Outside the Hydrographic Office—a strangely perverse institution so unenterprising that it refuses to be guided by amateur reports—the principal function of the Gulf Stream is to change its course. Not a season passes in which its divergences are not recorded everywhere except on the official charts.

It is a fortunate thing that Professor Le Dannois did not revoke the Gulf Stream while Benjamin Franklin was his Ambassador to France. Poor Richard was a firm believer in the great current, and he would have stood up for it. Even now there are those who, despite the quality of Professor Le Dannois's pronouncements, will hope for its reinstatement. Perhaps it was merely in recess when Professor Le Dannois looked at the place where it should have been.

Tariff Pleasantries

U.S. Attitude Puts An End To Possibility Of Neighbory Trade

Colonel W. L. McGregor, president of the Canadian Chamber of Commerce, got a few things off his chest and on to the necks of the American Chamber of Commerce to convention assembled at San Francisco. Referring to tariff pleasantries between Canada and the United States, he says right out that the Americans started the game. The Smoot-Hawley Act is described as putting an end to fifty years of Canadian efforts to trade with the United States. Furthermore, the newly threatened restrictions upon Canadian lumber and copper exports come in for rough handling. It is not much good trying to do business with a people who appear unwilling to buy from us, although they sell us one-quarter of their exports, quoth the colonel. In the classic phrase, he is not arguing with the Americans; he is just telling them.—Montreal Star.

Bobby: "Daddy, a boy at school told me I looked just like you."

Dad (proudly): "And what did you say?"

Bobby: "Nothin'. He was bigger'n me."

"Oh, I have forgotten my handkerchief! John, just run up and fetch it before the train comes in!"—Sondags, alias-Strix, Stockholm.

WORLD HAPPENINGS BRIEFLY TOLD

The United States celebrated the 160th anniversary of Independence Day at a cost of more than 240 lives.

The \$210,000,000 compromise unemployment relief bill was finally approved by the United States House representatives and senate conferees.

Limited sockeye salmon packs for 1932 in British Columbia waters are estimated in an advance report prepared for Hon. S. L. Howe, Provincial Fisheries Commissioner.

A shepherd and several hundred sheep were frozen to death on Mount Olympus, near Bursa, Turkey, during a terrific snowstorm which followed a recent heat wave.

By means of X-ray doctors of the Canadian Medical Association were able to read lead type upside down with their eyes closed in an experiment.

Ontario and Manitoba joined hands in an unique Dominion Day celebration. The natal day of the Dominion of Canada was chosen for the formal opening of the first highway to connect the two provinces.

After several months of investigation, F. A. McGregor, registrar under the Combines Act, has reported the existence of a price-fixing combine among the fruit basket manufacturers of Ontario.

Mrs. Katharine Medill McCormick, widow of the diplomat, Robert S. McCormick, died of a heart attack in Versailles, France. She was 79. She was the mother of Col. Robert R. McCormick, editor and publisher of the Chicago Tribune.

Pirate treasure—\$60,000 in pieces of eight, gold and silver bars and church relics—has been discovered on Cocos Isle by an expedition which left Vancouver, B.C., last February, Capt. R. D. Adams, a member of the party, reported.

Gold that led Jack Ruby and two young Englishmen to death by starvation in the Thelon River country in 1927 is beckoning to other prospectors. This summer a party will go into the barren wastes in search of Hornby's secret strike.

A difficult operation was reported at the homoeopathic hospital, Montreal, where an eight-year-old boy was taken with a punctured heart. Dr. J. Harry Condon successfully sewed the right ventricle of the heart. The boy, Robert Shepherd, fell upon his penknife while running, the blade penetrating the heart.

Old Roman Coins

Roman coins dated A.D. 320 to A.D. 349 were unearthed at the river-side home on the Thames of Viscount Craigavon, premier of Northern Ireland. The coins were found by a workman digging on what is believed to be the site of an old Roman road.

W. N. U. 1930

Shall Our Monetary

System Be Changed (Continued)

An Analysis Of Several Of The Proposals Made (By Major Strangue)

(6) That Central Banks should exercise a greater control over credit so that in times of prosperity credit would be curtailed in order to prevent over-speculation and over-expansion of buying and production, and so that in periods of adversity credits would be more freely available.

(NOTE)—Some critics consider that this suggestion involves an over-straining of the workings of the quantity theory of money. (In a subsequent article a brief explanation of the quantity theory of money will be attempted.) Other critics ask, who would be wise enough to decide when a period of over-expansion had arrived? and when prices are declining, and persons are fearful of making financial commitments for a future which they cannot foresee—who, it is asked, would be brave enough to borrow and use the credit even though it were available?

(7) That the Canadian paper dollar shall be based upon "units of labour" instead of gold. This is exactly the proposal made by Karl Marx in 1848, although it is not clear that there would be difficulty in deciding how the "socially necessary unit of labour should be computed."

(NOTE)—Many socialists and Communists advocate this today. No competent economist, so far as is known, however, is willing to regard such a system of price determination as even remotely workable or possible.

(8) That the purchasing power of the Canadian paper dollar shall be based upon an index number of wholesale commodities instead of up, gold, and that debts should be repayable with dollars of the same purchasing power that they had when the debts were incurred. Which authority's index number would be chosen, and which commodities should be included in the make-up of the average, and how comparisons of production or deficiency in any one commodity, or how surplus of any commodity would be governed, is not clearly explained.

(NOTE)—This is the method advocated by some termed "managed currency." Whether any set of human beings have had sufficient experience with the management of money, or sufficient wisdom, to control either inflation or deflation of money without any solid metal as an anchor, is questioned by many students.

(9) That bimetalism shall be instituted, using gold and silver as alternatives, which shall be interchangeable one for the other, or for paper currency, at a ratio set by law.

(NOTE)—Every attempt in history that has been made to set up bimetalism has ended in failure. Gresham's law seems inevitably to function, resulting in the most prized metal of the two being driven out of circulation and hoarded, so that eventually only one of the two metals is left to serve as a standard and medium of exchange).

(10) That syndicalism should be set up, which means that both gold and silver, not as alternates as in bimetalism, but tied together in definite proportions in terms of metal, shall be used as the standard and that paper currency shall be exchangeable for neither gold nor silver, but for bars of the metal unit of the two. This was first suggested by the eminent economist Professor J. Marshall. It is felt that the workings of the quantity theory of money would bring about an enhancement of commodity price level if increasing quantities of money metal as a base could be put into use.

(NOTE)—The objection to this scheme again is that it would be difficult for nations owning various amounts of gold to decide on the relative proportions of gold and silver to be used. Also the fear is expressed that the bars might be melted down by individuals or nations and the most prized metal of the two would be hoarded.

(11) That the silver coins in use throughout the world should contain a greater percentage of silver. Also that silver bars might be used as a base for paper money of small denominations, but of generous amounts, which would be exchangeable for silver only and not for gold. This, it is claimed, would raise the price of silver and so help the buying power of Eastern countries on a silver standard. It is argued, however, by critics that any enhancement of the price of silver would seriously harm producers and debtors in these Eastern countries, and that even the benefits to Western people might not be as tangible as assumed by some.

(12) That the issuing of all currency and credit shall be nationalized and that all finance and banking shall be operated and managed by Government instead of by private institutions.

(NOTE)—In criticizing this proposal, note is made that no Government of any country so far has ever shown much capacity for successfully managing any large matters of finance or business, and that efforts to distribute credit "at cost" by Governments to the people usually end in high cost

"Best for You and Baby too."

10 cents Individual Cartons

and in disastrous losses which have to be borne by the taxpayers.

(13) That the monetary system and other financial and banking methods with gold as a basis, should be left as they are without interference for claim proponents of this, the so-called crisis of money and the falling of prices has been the result of and not the cause of the present depression, which, these claim, have been brought about by other factors, many of which may not even be understood, but as in the past all originating in the War and its aftermath of prejudice, hates and extreme nationalism.

These orthodox supporters of the gold standard suggest that if international arrangements can be made that will restore confidence between one nation and another, so that some of the high tariff walls might be lowered, which would result in a freer exchange of goods and commodities, and if reparations for War debts can either be modified or be paid mainly in goods and not in gold, that substantial world-wide economic improvement would soon take place, and that it would be found that there is nothing in the monetary system for all practical purposes and to support at least the pre-war level of all prices. Nations are rapidly becoming, it is pointed out, the simple financial principle, long known to and practiced by Great Britain, that creditor countries must either bring their surplus gold abroad, buy foreign goods at home, or take their gold and spend it in foreign countries.

These economists draw attention also to the fact that as commodities become cheaper, gold becomes dearer, which allows of the working of lower grade gold ore bodies, which will increase the production of gold. Deeper gold will also bring out much that has been hoarded for centuries. These increases in the amount of gold will automatically, according to the quantity theory of money, result in a high price level of goods and commodities. At the very worst, state these people, deflation will continue until all goods, commodities, interest on money, have an exchange value. Debts that cannot be paid will either be cancelled or sold down, taxes will have to be reduced, and so practically a new start will be made, but on a lower general price level which will require, of course, much less gold to support it.

In the consideration of all these suggestions for monetary reform, two important facts must be borne in mind. First, the Canadian dollar by contract to pay each year in gold about \$200,000,000 in interest and in repayments of debt. No inflation of the Canadian dollar will reduce this one iota. The other is that Canada is an exporting nation; that the goods and commodities she sells for export are paid for in foreign currencies. No amount of inflation of the Canadian dollar will increase by one cent the amount of money received from abroad for these exported products.

(NOTE)—The Research Department of the Searle Grain Company has written two articles on Bimetalism and on the Gold Standard. These are available to any who may be interested).

Waiting Time Is Over

Prosperity Must Be Met Half Way Opinion Of Barnjum

Frank J. D. Barnjum, that Canadian optimist who confesses to having weathered three or four panics in his time, has no hesitation in saying that prosperity is now simply waiting for people to go out and meet it half way. "Don't keep on waiting; if you wait, you will never meet it," he says. "The business in a community is to be met in a community to the press. If all the things we have money, and there are a sufficient number who have, would go out and buy freely as they did in 1929, the depression would soon be a thing of the past. Buy, build, repair and stock up now, and by so doing save thirty to fifty per cent, is the word from the man who has been recently buying forest tracts in this country in order to save them for posterity. "And then advertise," he adds.

A machine which makes griddle cakes has ousted fifty girls in Childs restaurants in New York.

Receipts of government railways in Japan last year were nearly \$11,000,000.

Contract Bridge

By Hamlin B. Hatch, Cavanish Club, Toronto

The Limitations Of Distributional Valuations In Contract.—As previously stated, quantitative trick taking probabilities of any two combined hands in Contract are determined by three kinds of tricks, i.e. Honor tricks, long suit tricks and short suit or ruffing tricks. Valuing the combined twenty-six cards of any particular deal by the valuation table given in a previous article is, as a rule, very accurate up to a total of ten tricks. Beyond ten tricks, it is important that the player realizes that there may be a duplication of values in the hand. By this is meant that high card tricks and ruffing tricks as figured independently in the two hands, may overlap, and that, because of this overlapping, the distributional trick taking probabilities of the two hands may add up to anywhere from twelve to fifteen tricks when in the actual play only from ten to eleven tricks will be taken. The axiom follows then, that, in high contracts, it becomes necessary, as a rule, in order that the high contracts may be fulfilled, the combined hands be fairly strongly in the hands of one player. There fore, in high contract bidding, it becomes important that the partnership endeavour to ascertain from each other's responses whether or not there is value duplication in the hands. Occasionally hands occur which will make twelve or thirteen tricks when there is only from two to four high honor cards present in the combined hands, but this is so only when value duplication is entirely absent.

High contract bidding carries any partnership into the realm of the slams. There is one definite, never to be departed from, rule for slam bidding. The rule is, that it is definitely essential for the slam the combined hands have in case of little slam control of at least three suits, and in grand slams, control of all four suits. By control is meant the ability to take the first round trick of the suit controlled. So that in order to bid and make little, slam the two hands must have either three aces, or two aces and a void suit, or one ace and two void suits. Generally it may be said that slams are most usually made in hands which are unbalanced and in which the unbalance does not involve value duplication. Balanced hands on account of the fact that in grand slams, control of all four suits and ruffing tricks, do not make for the success of high contracts and slams. The tricks taken in balanced hands, especially in hands of the 4, 3, 2, and 4, 3, 3, 3, types are practically all honor card tricks. High contracts in unbalanced hands therefore, can only be made when the two hands are replete with aces and kings, queens and jacks. As a rule then, it is well for the contract player to realize, that slam contracts on balanced hands should only occasionally be considered. In fact, it is only when the bidding used to arrive at the slam has definitely located enough high cards to make the success of the slam bid fairly certain. On the other hand, slam contracts may be bid on unbalanced hands much more frequently as the additional factors of long suit and short suit tricks probabilities make slams much more probable than in hands where these additional factors are lacking.

The hand following is given as an example of arriving at a high contract which is impossible of fulfillment on account of value duplication.

North		East	
Spades 10, x, x		Hearts, none	
Clubs 8, x, x, x		Clubs 8, x, x, x	
West		South	
Spades x, x, x		Spades x, x	
Hearts 10, x, x, x		Hearts 10, x, x, x	
Diamonds x, x, x		Diamonds 10, x, x, x	
Clubs x, x		Clubs A, Q	

The Bidding

South	West	North	East
1 Spade	Pass	3 Diamonds	Pass
3 Hearts	Pass	4 Clubs	Pass
4 Clubs	Pass	6 Spades	Pass
Pass	Pass		

The combined hands figure fifteen taking tricks and in actual play will only take eleven tricks. The duplication comes in this case in two in-

Sick from Heat

"Baby's Own Tablets are excellent for children's summer complaints," writes Dr. M. E. Conner, Bradford, Ont. "Best of all children's remedies for summer complaint," writes Mrs. Geo. Walker, Burlington, Ont. "Very effective for teething, fever, colic, and other ailments. Pleasant as candy—and absolutely SAFE. 25¢ a package."

Dr. Williams' BABY'S OWN TABLETS

stances—First the void heart in the North Hand, and the Ace King of Hearts in the South Hand. The void Diamond in the South Hand, and the Ace King of Diamonds in the North Hand. The hand should not be bid slam as this duplication of values was shown in the bidding.

SUNDAY SCHOOL LESSON

JULY 17 THE PASSOVER

Golden Text: "Our passover also hath been sacrificed, even Christ."—1 Cor. 5:7.

Lesson: Exodus 11:1 to 12:36.

Devotional Reading: Psalm 63:1-7.

Explanations and Comments

Instructions As To the Instituting Of The Passover Rite, verses 1-11.—In the words of the Rabbi we have, the first independent nation constituted upon the principles of liberty and equality." It was fitting that the new era should be dated from that deliverance. The calendar was changed to commemorate it: The month Abib, known to the Babylonians as Nisan, shall be to you the beginning of months; it shall be the first month of the year to you." Abib corresponded to the end of March and the beginning of April. The month Tishri, the month of harvest, had hitherto been the beginning of the year. "The later Jews had a twofold computation of the year—the ecclesiastical year, which began with the month Abib, and by which all festivals were arranged, and the civil year, which began in the autumn, in the seventh month of the sacred year. In Egypt the year properly began with the summer equinox, when the Nile commenced to rise."—Eidersheim.

Specified directions were given for the Passover, when the Nile signified of everything about it. (1) The lamb was to be roasted, apparently that it might be kept whole; this represented the unity of the partakers. Its purpose has been achieved; in no race the family bond and the racial bond stronger than among the Jews. (2) Bitter herbs were to be used. They were symbols of the sufferings from which God's people were to escape. (3) The bread was to be unleavened, and they were to eat the feast in the garb and attitude of travellers. Both were reminders that their food was not to give them ease, but to make them strong for the journey. They were to stand ready for the signal for departure."—R. C. Gillette.

Subsidy Had Expired

Householders In Ireland Must Bear Expense Of Building

People who recently built houses in Omagh, Ireland, have failed in their efforts to get subsidies from the city and the government, and must pay for all the work and materials themselves. At a recent council meeting it was disclosed that many had started the houses under the impression that they would receive aid from both the municipality and the country. It was then revealed that the subsidy had expired March 31, 1931.

Emancipation For The Deaf

Social emancipation for deaf persons opportunities to obtain education and employment for which they are qualified were demanded by Edwin G. Peterson, Saskatoon, superintendent of the Saskatchewan School for the Deaf, at the triennial convention of the Western Canadian Association of the Deaf, held in Winnipeg.

FOR PIMPLES.

Add an equal amount of water to the mixture, and apply the mixture to the face with a cotton wool which will clear up your skin!

CHURCHILL WILL GOVERN FREIGHT RATES ON GRAIN

Churchill, Man.—Churchill will eventually govern freight rates on export grain from the west, according to northern shipping men.

Shipping men believe that the strategic position of the port will have a wide influence over all other North American terminals. They base their forecast on the fact that Churchill is not only more accessible to the overseas ports, but that the saving in time of shipments en route, and consequent saving in interest on money tied up in cargoes, will bring great volumes of business here.

For instance, it is stated that while 16 days were occupied in taking the test shipments of last year across the ocean, the ships can make the voyage easily in 12 days, if necessary.

It is pointed out that the Dalgleish steamers are high grade vessels, capable of 12 knots an hour. Wheat could be started from prairie points and delivered in the European ports in three weeks.

This gives Churchill a decided advantage over Vancouver, where grain is delivered to ships which must of necessity take as many as six weeks to deliver grain over the longer route.

Speaking of reports from Ottawa to the effect that special compasses, costing \$5,000, would have to be installed in ships entering this port, harbor men here declare that the modern ships already are equipped with necessary instruments. They also point out that no pilots are necessary to bring ships in here. There is deep water all the way. Ships have radio protection and steam into Churchill in safety to find a deep water pier and safe anchorage.

Who gets the benefit of the saving in freight rates by shipping wheat via Churchill?

This was the question asked by the Prince Albert board of trade. It was shown that the rate from Prince Albert to Churchill was 20 cents per hundred pounds, as against 23 cents per hundred pounds from Prince Albert to Fort William.

It is said here that in the case of the sale by the pool to the Continental Grain Company, the pool farmer receives the benefit, since the grain is sold on delivery here. The farmer is said to receive the market price at the country elevator, through the pool, which in turn ships it to Churchill, where it is bought "in storage" by the grain company.

It is pointed out that the grain company has nothing to do with that saving since they bid on wheat "in Churchill." It does not matter to them how it gets here, or what it costs.

The railways do not get the saving. In fact they do not receive as much revenue, as they would if Churchill port were not open, and they got the longer haul to the lake head.

On the other hand the Saskatchewan pool, with five terminals at Fort William, where handling charges are collected, profits by no handling charges in this government elevator in Churchill. In order to encourage shipments, the government took out the handling charges on all shipments until after the end of August this year. The charges are approximately one and a quarter cents per bushel.

There is a saving on freight rates of one, to three cents on the Churchill route, according to the locations of the northern prairie towns shipping export wheat.

Giant Stand Of Wheat

Ontario Farmer Has Grain Over Five Feet High

London, Ont.—Farmer Frank Spetigue, of Westminster township, proudly surveys his broad wheat fields after reading that the grain stands of the west, which promise to produce a better than-average yield, are about three feet tall. And the reason for Farmer Spetigue's pride hangs on the fact that his wheat right now averages five feet, four inches in height. The giant stand is believed to set a record for the district at this date.

W. N. U. 1950

Cocos Island Treasure Not Yet Uncovered

Head Of Expedition Says Report Of Success Unfounded

Panama City.—Col. J. E. Leckie, head of the Vancouver, B.C., expedition which is searching for buried treasure on Cocos Island, off the coast of Costa Rica, wirelessly the United States naval reserve station at Balboa that reports the treasure had been uncovered were unfounded.

In a wireless conversation with the naval reserve station operator, the operator of the expedition added: "How did anybody ever get the notion we would ever find anything on this God-forsaken island?"

The Balboa reserve station is the expedition's base and the center of the rest of the world and officials there said no message indicating the treasure had been found were transmitted lately.

J. Walter Young, engineer of the reserve station at Balboa, said Leckie declared before he left Panama for Cocos Island: "If we find gold you'll never know it until after it is safely aboard the Canadian destroyers which are standing by within the area to take the treasure to Canada."

Ottawa, Ont.—"We hope the destroyers are there, for we need the money," was the comment of defence department officials. "However," added the officials, "we are rather afraid the destroyers are still to be found in the neighborhood of Esquimaut, their home station."

'Plane Crash In North

Bodies Of Three Aviators Will Be Brought To Fort Smith

Edmonton, Alberta.—Bodies of Andy Cruikshank and two air mechanics who died with him in a plane crash near Lake Macdonald, in the Northwest Territories, are likely to be brought to civilization for burial, it was learned here.

Pilot Walter Gilbert who found the broken bodies of Cruikshank, one of the north's greatest aviators, and Horace Torrie and Harry King, mechanics, has made a second flight to the lonely spot where the wrecked plane lies with the intention of taking the bodies to Fort Smith.

Mrs. Cruikshank and Mrs. King are at Fort McMurray, radio station and trading post in northern Alberta, and it is considered possible the remains of their husbands may be taken there.

C.N. Shops Using Wood

Port Arthur, Ont.—Wood instead of coal is being burned in northwestern Ontario roundhouses and shops of the Canadian National Railways with favorable results on the labor situation in the district. Hon. William Finlayson, Ontario Minister of Lands and forests, said here. The railway, he said, agreed to use the wood in substitution for coal formerly imported from the United States.

Lost Trapper Returns

Lindsay, Ont.—N.W.T.—Andy Nelson, lost seven days in the bush around Great Bear Lake, limped into his camp near exhaustion. Nelson had injured his ankle while making a short prospecting party from camp, and then became confused in his direction. For seven days, without food, he wandered about and finally managed to take the correct route back to his camp.

Stay Was Limited

Churchill, Man.—Tired, wet, cold and bedraggled, the first man to get as far as Churchill in a gate-crashing attempt, arrived here aboard a wheat special. The grain train was carrying one car of lumber. The man crouched between the jutting ends of the timbers. He suffered intense cold. He was sent south on the first train.

World-Wide Depression

Vancouver, B.C.—That abolition of world-wide depression depends not on any one nation, but on world co-operation, was indicated by speakers at session of the convention of Pacific Advertising clubs in annual meeting here.

Bridge Bandit

Calgary, Alta.—Calgary's "bridge bandit" has re-appeared. He entered a home and robbed two women at gun-point of \$9.75. The bandit has terrorized bridge parties for the last month, holding up the players and obtaining all ready cash.

COMES TO CANADA

Sir Douglas Newton, famous British agricultural expert, who will come to Canada with the British Imperial Conference delegation to advise on matters pertaining to agriculture.

Obtains Her Freedom

Divorce Has Been Granted To Ethel Catherwood McLaren

Reno, Nev.—Ethel Catherwood McLaren, known throughout Canada as the "Saskatoon Lily," and rated the most beautiful athlete in the 1928 Olympic games, was divorced on grounds of non-support here from James Gillan McLaren of Toronto.

The divorce action was filed last October, but Mrs. McLaren declined to proceed at that time for fear that her residence in Nevada would jeopardize her chances to represent Canada in the coming Olympic games. She refused to discuss her Olympic games plans, but said, however, that she is in training.

The "Saskatoon Lily" and McLaren were secretly married in York township, Ontario, November 29, 1929.

Free State Delegates

Twenty-Five Representatives To Attend Economic Conference

Dublin, Ireland.—It was officially announced that the Irish Free State's delegations to the Imperial Economic Conference will consist of 25 persons and will be headed by three government ministers. Sean T. O'Kelly, vice-president of the executive council; Sean Lemass, minister of industry and commerce, and Dr. Ryan, minister of agriculture.

Senator Johnson, one of the Free State's labor leaders, will accompany the party as an expert adviser of labor problems.

Will Support Party

Alfred Smith Decides To Back Presidential Nominee

New York.—Alfred E. Smith said he would support the nominees of the U.S. Democratic Party, after expressing an opinion that the formation of a third party would not be practical "at this time."

Smith amplified a prepared statement in the affirmative just once to say that his declaration of support for the Democratic party included support for its presidential and vice-presidential nominees, Roosevelt and Garner, neither of whom was mentioned by name in the statement.

CANADIAN MEDICAL MEN COMPLETE CANCER REPORT

New knowledge of the cause and cure of cancer is about to be revealed to the Cancer Institute of London, England, by Dr. F. J. H. Campbell (left), who with Dr. E. F. Johns (right), has been working for five years on cancer research for the University of Western Ontario. Dr. Campbell has sailed for England to present the unpublished report, which is said to contain many startling discoveries.

Wheat At Churchill

Over 1,000,000 Bushels Of Wheat In Bins At Northern Port

Churchill, Man.—More than 1,000,000 bushels of the first order of 2,000,000 bushels of wheat to be shipped through this new port this summer, are now in the bins in the harbor, and the second order is rolling in from Saskatchewan points. It is expected 11 ships will be necessary to take away the first two orders of grain. There is much speculation here as to when they will arrive, but none as to how fast they can be loaded. Two or three days will do the job, if there are enough trained cargo trimmers on hand.

Four ocean steamers will be able to line up in a row, when the extension of the grain galleries is completed. They can be loaded in a day.

The elevator was designed for a total capacity of 10,000,000 bushels. The first storage unit of 2,500,000 has been completed, and is being filled for the first time. Grain men state it will soon be necessary to increase the storage capacity since the investment in plant equipment and machinery has been made for a much larger storage plant.

Dairy Probe

Alberta Government Announces Members Of Fact-Finding Committee

Edmonton, Alberta.—Alberta Government announced the members of the fact-finding committee which will study the milk question in the province. Formation of the committee is the result of complaints made by milk producers and distributors over the low price received for their product. J. J. Frawley, solicitor of the attorney-general's department, is chairman of the committee which will concentrate mostly on the situation in Calgary and Edmonton. Every phase of the question from producer to consumer will be investigated by the committee which will commence its work at once.

Trans-Continental Flight

Vancouver Sun 'Plane Lands Safely At Coast Airport

Vancouver, B.C.—Landing their plane, "The Vancouver Sun," at the Sea Island airport here, pilots R. H. Storer and B. R. Ronald completed their trans-Canada flight which started from Montreal.

Originally planned as a trans-Canada nonstop refuelling flight, the flyers were forced to break up their flight when a broken oil line forced their ship down near Sudbury and delayed them three hours shortly after their takeoff from St. Hubert aerodrome, Montreal.

Practically the entire flight was made bucking strong head winds and rains which lashed the ship.

Trapper Lost In Arctic

Ottawa, Ont.—James Asselsa, Ione Fiji Islander, who for more than 20 years eked out an existence trapping along the Arctic coast and islands east of Coronation Gulf is listed among the missing, and is thought by the Royal Canadian Mounted Police to have perished on an ice floe north of the mainland of Canada.

REPORTS OF GUN RUNNING ON IRISH COAST

Dublin, Ireland.—President Eamon de Valera was bombarded with questions in the Dail Eireann over alleged attempts to land arms illegally on the coast of the Irish Free State. The president declared the government had taken all precautions that the representations warranted.

The discussion ended with Patrick McGilligan, former minister for external affairs, declaring he was unsatisfied and would again raise the matter.

In reply to questions, Mr. de Valera declined to say whether the Free State had sought the collaboration of other governments or had received any offer of collaboration of other governments or had received any offer of collaboration from "another government" to deal with the gun-running.

A member asked if the president was aware that a boat had been searched for arms two weeks ago. Mr. de Valera said the step had been taken in accordance with "general precautions." He declined to say whether boats had been searched at the authorities request.

Unofficial reports some time ago said that vessels of the royal navy were on the look out for vessels reported to be attempting to land arms, probably for the illegal Irish Republican army.

Sensational Trial Ended

Mrs. Elvira Barney Acquitted Of Murder

London, England.—A jury of 10 men and two women found that Mrs. Elvira Barney, 26-year-old daughter of a wealthy baronet, was not guilty of the murder of Thomas William Scott Stephen, her lover, who was shot to death in her flat after a party, May 31.

The verdict was reached after one hour and 53 minutes of deliberation. Mrs. Barney collapsed when she heard it. A short time later, wholly freed, she left the Old Bailey and went to the home of her father and mother, Sir John and Lady Mullens.

The jury also acquitted Mrs. Barney on two other charges—one of manslaughter and another of intent to do Stephen, the son of a banker, grievous bodily harm by trying to shoot him during a quarrel a few weeks before his death.

A New Racket

American License Plates Cause Quebec Officials Much Worry

Quebec, Que.—The range of human ingenuity in the "racket" business seems to be unlimited.

The latest twist of humanity's pre-occupation to make or save money is revealed in a statement by Quebec highway officials. They say 1531 license plates of several American states have been imported in quantities, and sold to Canadians who have thus saved license renewal fees.

The beautiful part of it all—for the offenders—is in the officials' confessed inability to deal with the offence severely, because of the great number of "real" American citizens at present touring the province.

Wolves Of Algonia

Sault Ste. Marie, Ont.—Wolves of Algonia will strut before visitors during Wolf week, July 25 to 30, without fail. This was the assurance which was given Wednesday, July 6, by the committee in charge, when it was reported nine wolves were available already. Others are being sought. The wild life show will include moose, bear, deer, beaver, mink, and other animals seen in this territory.

Foot And Mouth Disease

Victoria, B.C.—Foot and mouth disease in cattle, prevalent in certain areas in the British Isles, has been definitely traced to the importation of foreign brocoli through scientific investigations conducted by Scottish agricultural organizations, says T. G. Coventry, British Columbia markets representative in England, in a letter to J. B. Munro, deputy minister of agriculture here.

Crop Prospects.

The crop prospects in Alberta continue to be good, according to the fortnightly crop report issued by the Dept. of Agriculture. Over a considerable portion of the province the outlook is for a good crop with heavy yields. A very large proportion of the wheat crop is now headed out, with oats and barley in many districts beginning to appear in head.

Edmonton Ex. July 18.

A number of new and interesting displays in the Manufacturer's building will welcome patrons to Edmonton Ex. on July 18 to 23. The Chinese exhibit of oldtime costumes and other interesting features of life in ancient China, has been enlarged by the addition of articles from the Forbidden City and other interesting items. Among the other features will be the Oldtimers' re-union, with the Princess Pats band. Tickets are now on sale in Stony at the Royal Cafe. The tickets are 5 for \$1.

Card of Thanks.

Mr and Mrs Chas. Poerner wish to thank their friends and acquaintances for the sympathy and kindness shown at the time of their recent bereavement.

Schedule of Mails.

To the East—Every day except Sunday; train No. 2, at 6.18. From the East—Every day except Mon.; train No. 1, at 24.16. To West—Sun., Tues. & Friday train No. 1, at 24.16. From West—Mon., Wed. & Friday train No. 2, at 6.18. Reg. for the East, Mon. Wed. and Friday. Reg. for the West, Sun., Tues. & Thurs. Mail should be posted before 10 p.m. for dispatch to both Trains No. 1 & No. 2.

DR. R. A. WALTON,
PHYSICIAN AND SURGEON,

N.D.G. & N.S.F. Checks.

The usage of amateur financiers in issuing checks which are subsequently dishonored at the bank will shortly be a lost art. The regulations passed at the last session of Parliament and proclaimed in force July 1st, are to land, and put the n.s.f. check in the same category as the "no account" check. Here's what the new regulations say:

"In any prosecution under this section, if it be shown that anything capable of being stolen was obtained by the accused by means of check, which, when presented for payment within a reasonable time, was dishonored on the ground that there were no funds or not sufficient funds on deposit in the bank to the credit of the accused, it shall be presumed that such thing was obtained by fraudulent intent by false pretences, unless it shall be established to the satisfaction of the Court that when accused issued such check he had reasonable grounds for believing that it would be honored if presented within a reasonable time after being issued."

The New Game Act.

According to a Proclamation in The Alberta Gazette, Alberta's new Game Act, passed at the last session of the Legislature, is now in operation, coming into effect on Dominion Day. The new Act rules that all animals and birds wild by nature are the property of the Crown in the right of the Province, and no person may hunt or trap these unless authorized so to do under the Act, by license or by permit.

Potts' Chirography

"What a terrible writer Potts is! He once sent a letter to Smithson, the grocer, asking to send around some tomatoes."

"What happened?"
"Well, after Smithson had used it as a passport to the U.S., and as a drivers' license in B. C., he took it home and played it on the piano."

Be Careful on the Road

Contrary to a very general belief, says an exchange, it isn't always the other fellow who is inviting an accident. Accidents have a way of happening in all places, not just in one, and there is no one cause for them, but many. If taking a little more time and being a little more careful would help to reduce the amazing total of preventable accidents, is it not the duty of every man and every woman to give this time and care?

Just Like Daddy's.

Barber—Well, my little man, and how would you like your hair cut?

Small Boy—If you please, sir, just like father's, and don't forget the little round hole where the head comes thru.

Heard at the Court.

Judge—Guilty or not guilty, Rastus?

Rastus—Not guilty, suh.

Judge—Ever been in jail?

Rastus—No suh. I never stole nuthin' before.

This Week's Pome.

She wore her stockings inside out
All thru the summer heat
She said it cooled her off to turn
The hose upon her feet.

Church Services.

United Church service every Sunday Evg. at 7.30. Rev W. E. Sieber.

Services in St. Philip's Church next Sunday, 7.30 p.m.

On Sunday next there will be Lutheran services at St. Matthew Schoolhouse at 7.30 p.m., by Rev. H. Kuring.

Lectures on "Christian Fundamentals" by Pastor Kuring, at St. Matthew Schoolhouse No. 2, July 20, at 8 p.m.

VACATION TIME

go for a week, a month or more, but go!

DELIGHTFUL RESORTS

FROM COAST TO COAST

offer ample scope for your favored recreations . . .

EAST

MUSKOKA LAKES, 1900
MUSKOKA—There are only a few of the resorts in Ontario which is a valuable land of Huron's Domain. In this province there is a resort to suit every taste and purse.

IN ANCIENT QUEBEC—The Vacation
Land of Romance, where old-world customs and landmarks still abound. Many lovely resorts on the Lower St. Lawrence, in the heart of French-Canada.

THE PROVINCES BY THE SEA—Sea
side resorts and woodland playgrounds abound in the Maritime Provinces. Fishing, sailing, forest rambles make each day a joy.

WEST

CANADIAN ROCKIES—Visit the playground
ground of Canada's wonderful West—a land of mystery—of towering, age-old mountain peaks. Stop over at Jasper National Park—enjoy its superb hotel service—sunny golf—hiking and mountain climbing. Jasper Park Lodges open May 1st to September 30th.

TRIANGLE TOUR—Western from Jasper,
see the scenic beauty of the Triangle Tour—along the rocky Shuswap to Prince Rupert—by boat through the Shuswap Sea of the North Pacific to Vancouver—back through the scenery of the Rocky Mountains to the Province of the Fraser and Thompson Rivers.

ALASKA—Take a boat trip to Alaska,
the land of Romance, Charm and Mystery. The Canadian National Railway offers a twice-a-week service from Vancouver or Prince Rupert. Excellent connections for Lake Alton and beyond by the White Pass and Yukon Railway, following the famous Klondike Trail of '96—a succession of thrills and a constant panorama of magnificent scenery.

Agent of Secretary-Treasurer.

"DON'T BE ROBBED OF YOUTH!"

SAYS RALPH GRAVES

RALPH GRAVES
Scenario Writer

"Here in Hollywood," Ralph Graves, scenario writer, says, "women don't use birth-days as an excuse for growing old. They seem to know the secret of becoming more and more alluring year after year."

"The screen and stage stars usually keep that lovely irresistible glow that youngsters have. And lots of other women, these, seem to have learned their complexion secret."

"Above all, guard complexion beauty," the stars will advise you. "The gentle, soothing Lux Toilet Soap regularly as you do."

Attresses the world over use fragrant, delicately white Lux Toilet Soap to keep their complexions always exquisite. In Hollywood, where 666 of the 694 important actresses are devoted to it, this fine soap is official in all the great film studios.

You are sure to love the way it cares for your skin. The delicate, creamy lather is like cake French soap for just 10c.

"The Splendid Folly," "The Harriet of Pease," Hodder & Stoughton, Ltd., London.

CHAPTER XXV
Arranged By Telephone

The visit to London, if it had not been profligate in the results which Lady Anne had hoped for, had at least accomplished certain things.

It had acted as a brake upon the swiftly turning wheels of two lives precariously poised at the top of that steep hill of which no traveller can see the end, but which very surely leads to heartbreak and disaster, and had sufficed, as Jean had suggested that it might, to restore Nick to a more normal and temperate state of mind.

He and Claire had passed a long hour alone together the day after his return to Staple, and now that the first violent reaction, the first instinctive impulse of unbearable revolt from Sir Adrian's spying and brutality had spent itself, they had agreed to shoulder once more the burden. Fate had laid upon them, to fight on again, just holding fast to the simple knowledge of their love for one another and leaving the ultimate issue to that great unfathomable Player who "litters and fifties moves, and mates, and slays," not with the shadowed vision of our finite eyes but with the insight of eternity.

Jean had seen them coming hand in hand through the cool green glades of the wood where the great decision had been taken, and something in the two young, stern-set faces brought a sudden lump into her throat. She turned swiftly aside, avoiding a meeting, feeling as though here was high ground upon which not even so close a friend as she could tread without violation.

Try Lydia E. Pinkham's Vegetable Compound

She Shouldn't be Tired
No energy, circles under her eyes, if she would only try Lydia E. Pinkham's Vegetable Compound in tablet-form, she could be strong and happy again.

W. N. U. 1950

To Jean herself the week in London had brought a certain new tranquility of spirit. Quite naturally and without effort—thanks to Lady Anne's skilful stage-management—she and Blaise had been constantly in each other's company, and, with the word "Beloved" murmuring in her heart like some tender undertone of melody, the hours they had shared together were no longer a rigid ecstasy and pain, married by torturing doubts and fears, but held once more the old magic of that wonder-day at Montevan.

Somehow the dividing line did not seem to matter very much, now that she was sure that Blaise, on his side of it, was loving her just as she, on hers, loved him. Indeed, at this stage Jean made no very great demands on life. After the agony of uncertainty of the last few months, the calm surety that Blaise loved her seemed happiness enough.

Other sharp edges of existence, too, had smoothed themselves down—as sharp edges have a knack of doing if you wait long enough. Burke seemed to have accepted her last answer as final, and now spared her the effort of contending further with his tempestuous love-making, so that she felt able to continue her friendship with Judith, and her consequent visits to Willow Ferry, with as little "genie" as though the episode at the "Honey-mooners' Inn" had never taken place. She even began to believe that Burke was generally slightly remiss in his behaviour on that particular occasion.

Apparently he had not made a confidant of his sister over the matter, for it was without the least indication of a back thought of any kind that she approached Jean on the subject of spending a few days with herself and Geoffrey at their bungalow on the Moor.

"Geoff and I are going for a week's blow on Dartmoor, just by way of a pick-me-up." Come with us, Jean, it will do you good after stuffy old London—blow the cobwebs away!

But here, at least, Jean felt that discretion was the better part of valour. It was true that Burke appeared fairly amenable to reason just at present, but in the informal companionship of daily life in a moorland bungalow it was more than probable that he would become less manageable. And she had no desire for a repetition of that scene in the inn parlour.

Therefore, although the Moor, with its great stretches of gold and purple, its fragrant, heathery breath and its enfolding silences, appealed to her in a way in which nothing else on earth seemed quick to appeal, pulling at her heartstrings almost as the nostalgia of home and country pulls at the heartstrings of a wanderer, she returned a regretful negative to Judith's invitation. So Burke and Mrs. Craig packed up and departed to Three Fir Bungalow without her, and life at Staple resumed the even tenor of its way.

The weather was glorious, the long, hot summer days melting into balmy nights when the hills and dales amid which the old house was set were bathed in moonlight mystery—transmuted into a wonderland of phantasy, cavernous with shadow, where unredeemed dragons lurked, lambent with opalescent fields of splendour whence poured the glimmer of half-visited palaces or the battlemented walls of some ethereal fairy castle.

More than once Jean's thoughts turned wistfully towards the Moor which she had so longed to see by moonlight—Judith's "holy of holies" that God had made for His spirits"—and she felt disposed to blame herself for the robust attack of caution which had impelled her to refuse the invitation to the bungalow.

"One loses half the best things in life by being afraid," she told herself petulantly. "And a second chance to take them doesn't come!"

She felt almost tempted to write to Judith and propose that she should join her at the bungalow for a few days after all if she still had room for her. And then, as is often the way of things just when we are contemplating taking the management of affairs into our own hands, the second chance offered itself without any directing on Jean's part.

The telephone bell rang, and Jean, who was expecting an answer to an important message she had phoned through on Lady Anne's behalf, hesitated to answer it. Very much to her surprise she found that it was Burke

who was speaking at the other end of the wire.

"Is that you, Geoffrey?" she exclaimed in astonishment. "I didn't know your bungalow was on the telephone. I thought you were miles away from anywhere!"

"It isn't. And we are," came back Burke's voice. From a certain quality in it she knew that he was smiling. "I'm in Okehampton, phoning from a pal's house. I've a message for you from Judy."

"Ye-es?" intoned Jean enquiringly. "She wants you to come up to-morrow, just for one night. I'll be a full moon and she says you have a hankering to see the Moor by moonlight. Have you?"

"Yes, oh yes!"—with enthusiasm.

"Thought so. It certainly does look topping. Quite worth seeing. Well, look here, Judy's got a party of friends, down from town, who are coming over to us from the South Devon side, going to drive up and stay the night, and the idea is to do a moonlight scramble up on to the top of one of the tors after supper. Are you game?"

"Oh! How heavenly!" This, ecstatically, from Jean.

"What?"

"Heavenly. Heavenly!"—with increasing emphasis. "Can't you hear?"

"Oh, heavenly—yes, I hear. Yes, it would be rather—if you came."

Even through the phone Burke's voice conveyed something of that upsettingly fiery ardour of his.

"I won't come—unless you promise to behave," said Jean warningly.

Bubbling over with pleasure at the prospect unfolded by the invitation, she found it a little difficult to infuse a befitting sternness into her tones.

"Do I need to take fresh vows?"

Came back Burke's answer, spoken rather gravely. "I made you a promise that day—when we drove back from Dartmoor. I'll keep that."

"I'll never kiss you again till you give me the lips yourself!"

The words of the promise rushed vividly into Jean's mind, and now that steady voice through the phone uttering its quiet endorsement of the assurance given, made her feel suddenly ashamed of her suspicions.

"Very well, I'll come then," she said hastily. "How shall I get to you?"

"It's all planned, because we thought—at least we hoped—you'd come. If you'll come down to Okehampton by the three o'clock train from Coombe, I'll meet you there with the car and drive you up to the bungalow. Judy is going to drive into Newton Abbot early, to do some marketing, and afterwards she'll lunch with her London people—the Holfords. Then they'll all come up together in the afternoon."

(To Be Continued.)

The Line Is Busy

But Chinese Have Most Polite Way Of Saying So

In China, when a subscriber rings up the telephone exchange the operator asks: "What number does the honorable son of the moon and stars desire?" After a short silence the exchange resumes, "Will the honorable person graciously forgive the inadequacy of the insignificant service and permit this humble slave of the wire to inform him that the never-to-be-sufficiently censured line is engaged?"

Tired All Day Long

Mother and Daughter Both Praise Dr. Williams' Pink Pills For Restoring Vigour

"Being rundown, I was not able to do my work; I had no ambition, and could not sleep at night," writes Mrs. Reuben A. Mott.

Grafton, Ont. "I saw an advertisement for Dr. Williams' Pink Pills. Trying two boxes, I got relief right away; so I kept on taking the Pills, and now I am able to do my work with pleasure, and I have no ailments whatever."

Mrs. Ament adds: "My daughter was also rundown. Every one thought she was going into a decline. I gave her Dr. Williams' Pink Pills, and I could see success immediately."

Don't allow yourself or your daughter to be robbed of health and vigour. Take Dr. Williams' Pink Pills. They banish rundown or nervous conditions by creating new red blood cells, which impart health and vitality. Get a supply at your druggist's; is the new glass container—50c.

Let ENO keep you well regulated and you will have the normal, slender body nature intended for you. ENO'S "Fruit Salt" will keep the body normal by ridding the intestinal tract of poisonous waste matter. Be ENO conscious. ENO is the safe, sure way to normal health—and slenderness.

Ca-72

ENOS "FRUIT SALT"

Punctuality Is Amazing

Birds and Fish Seem To Have Extraordinary Time Sense

Some birds certainly have a sense of time. Observations made at Barton Abbey, England, in the month of June prove that the lark is definitely the first to sing in the morning. This at two minutes after three. Next comes the thrush, third the sedge warbler, fourth the blackbird. Then in order the reed bunting, robin, cuckoo, willow-wren, rook and garden warbler. The whole list is too long to give, but the same order was kept faithfully morning after morning, ending with the tree creeper which did not sound its note until four thirty-seven.

Great shoals of a delicious little fish arrive yearly off the coasts of Samoa on the same day in the same month, with such regularity that, from time to time out of mind, the day has been set apart by the natives as a holiday and a feast day. The shoals take twenty-four hours in passing, then they are not seen again until the same day the following year. There is no explanation of the amazing punctuality of their yearly visit.

Persian Balm—the unrivalled toilet requisite. Essential to every dainty woman. Imparts rare charm and beauty to the complexion. Softens and beautifies the skin. Makes hands flawless white. Cools and refreshes. Relieves roughness. Ideal for the feminine complexion. Delicately fragrant. Slightly absorbed into the tissues, leaving no stickiness. Persian Balm invariably creates a subtle elegance and charm.

THE RHYMING OPTIMIST

By Aline Michaels

HEART OF GOLD

Life is a flower with a heart of gold; Though petals after petals drop away As one by one the swift-winged years depart.

Still something of its charm and fragrance stay. As ever wider open falls the rose, Still heavier, more potent grows its scent.

And rare, new loveliness the hours disclose, Surpassing speech; yet strangely eloquent.

A flower is life; yet, as youth's petals fall, And flying years reach out with eager clutch,

Time is defrauded; he cannot take all But only graces valued overmuch; For not until the final leaves unfold Does it reveal its matchless heart of gold.

Terribly Inconsiderate

According to an official, says London Punch, the offices of income collectors are so scantily furnished that it isn't possible to ask taxpayers to take a seat. Nor is there any accommodation for those who faint.

No child should be allowed to suffer an hour from worms when prompt relief can be got in a simple but strong remedy—Mother Graves' Worm Extirminator.

Only On Map

With all the present talk of communism, it might be well to point out that, although, on all maps of the world, the British Empire is colored red, there is very little of that spirit found in any part of the Empire.

Nome, Alaska, is farther west than the Hawaiian Islands.

Little Helps For This Week

"Great peace have they which love Thy law."—Psalm cxix. 165.

Dear Lord and God, incline Thine ear unto my call; O grant me that in all, This will of mine May still be one with Thine!

Teach me to answer still, What'er my lot may be, To all Thou sendest me Of good or ill.

—Alice Williams.

The root of all dissatisfaction and discontent with self, and with one's surroundings, and with one's prospects, can never be reached until we go down to the well of God in our soul's birth and soul's mission, and make the discovery of that will for us, and the doing it our chief aim and hope. No change in life's circumstances, no larger work, no happier outlook will be enough. We ourselves need to be born again; it is not out outward life that needs to be refashioned.—Newman Smyth.

DECLARE THEY HATE SIGHT OF DUST CLOTHS

Canadian women vote dust cloths a nuisance to use and to wash

MUCH PREFER APPLEFORD WONDER PAPER

With so much inventive thought being given to eliminating unnecessary housework, it is only natural that a worthwhile substitute for the dusty dust cloth should be sought.

Now it has been found! Appleford Wonder Paper which actually dusts—as it cleans—as it polishes is receiving a hearty welcome from Canadian women who detest dust cloths and all they stand for.

Wonder Paper is made from clean rags and soft paper pulp, thoroughly impregnated with a high-grade furniture polish, and absorbs dirt instead of spreading it.

Appleford Wonder Paper comes in handy-size packages, twenty-five sheets, each as large as a dust cloth. You merely crumple a sheet into a soft pad, and go over the surfaces requiring attention.

You'll be amazed at the quick and lasting finish Wonder Paper gives. When one side is worn and soiled, simply turn the Wonder Paper inside out. After the Finisher or woodwork has been gone over, you can still use your Wonder Paper on the floors.

And when you're through—throw it away. No dust to shake out or wash. No bother at all. The most obnoxious part of housework done in the time and with half the effort. Doesn't the idea appeal to you?

Special Offer

Wonder Paper is made by the makers of the famous PARASANI heavy wadded paper in the Green Box. Most grocery hardware and department stores sell Appleford Wonder Paper. If you don't, write the coupon and we'll give you a new and unique booklet entitled "Leftovers," containing one hundred recipes, as a bonus for your trouble.

Appleford Paper Products, Ltd., 1000-10th Ave., Toronto, Ont. Enclosed find 25c for which please send me one full-size package of W O N D E R P A P E R and your 100 recipes for "Leftovers."

SERVICE GARAGE. Stony Plain.

ADVANCED FEATURES...YES!

But Chevrolet Also Gives You

PROVED DESIGN

Of course, you want the new advancements in the car you buy today—easy gear-shifting—free wheeling—smoother, more powerful performance—better riding qualities! And you get them all in the Chevrolet Six—plus proved design. That is why the Chevrolet type of "economical transportation" is so much more enjoyable and satisfying.

Chevrolet is the lowest-priced car on the market combining Silent Syncro-Mesh Shifting with Free Wheeling! Chevrolet gives you easy-going speed, and more power for acceleration, when you need it most. The Chevrolet engine is mounted on thick rubber blocks, utilizing the most modern method of preventing vibration of body, fenders and doors! Only the Chevrolet Six in the low price field offers you the extra roominess and style of body by Fisher! The sturdy foundation of Chevrolet riding comfort is a long, strong frame with four modern, lengthwise-mounted springs and four Lovejoy shock absorbers!

And Chevrolet's balanced six-cylinder design—so well as every other vital part of the car—has been proved reliable by more than 2,000,000 owners, in billions of miles of service! Chevrolet long ago pioneered the six-cylinder engine in the low price field because this type of power plant strikes a perfect balance of smoothness and economy.

Nothing less than six cylinders can give multi-cylinder smoothness—anything more than a Six would mean a sacrifice of economy. It is a fact that the Chevrolet Six costs less for gasoline, oil and upkeep than any other full-size car! It costs less to own, too—at its new, reduced prices. Your present car will probably take care of the down payment, and you can pay the balance in easy instalments over a period of months.

The Main St. Menace.

There not having been a runaway in town for over a week, on Saturday last a bay and strawberry roan pair of horses belonging to a town-site farmer, having teed off at the Armbruster Mill, started to break the record for the Main St. quarter-mile sprint. They got away to a good start and after passing the P. O. corner the strawberry equine took a fancy to the En ar-co nigro sign, run up to it, toppled it over, and sat on it, scoring a touchdown. After a time the owner driver arrived on the scene, and expressed surprise the damage done was so slight.

Spruce Grove News.

Mr and Mrs Dan Brox have gone on a motor trip to Didsbury and points south.

Mr Andrew Miller, Wintburn, is the recent owner of a new Chevrolet Six Coupe, purchased from R-g. Pilcher, proprietor of the popular Hi-Way Garage at the Grove.

Mr Mike Dusholke, accompanied by his son Chris, spent a very enjoyable holiday with Mr and Mrs T. Kelling, Cherhill.

According to Your Correspondent, The Duke said the first thing he was taught at School was to mind his own business.

Mr Dave Bell has completed the job of painting the front of his garage, giving it the appearance of a Super-service station.

Miss F. Pinchbeck, who had been teaching at Jasper during the past year, arrived in Edmonton for the summer vacation last week by airplane.

Mr Sutherland's condition is somewhat improved. His friends are hoping for his early and full recovery.

Elephant Brand Gives Results

During the past 2 or 3 years the question of the use of commercial fertilizer has come very much to the fore in western Canada. It is of interest locally as several farmers, widely scattered over this district, have used fertilizer on their crops this season. Mr J H McLaughlin, local agent for the Consolidated Mining & Smelting Co, reports that with a representative of the company he made a tour of the district recently, visiting every farm where the fertilizer had been used. Excellent results are being obtained on wheat and oats, but perhaps the most outstanding showings are on barley. From present indications there will be tremendous increases in yield as well as earlier maturity in every one where used on this crop. This may be seen to advantage on the farms of R C Johnson, Wintburn; Alan Brebner, Spruce Grove; Karl Schlecker, Holborn, and on Mr McLaughlin's own place, where 500 acres of grain were fertilized this year.

The Consolidated Mining and Smelting Co. intend putting on a field day in this district in the near future, when a technical man from their headquarters will conduct the farmers thru fields where the fertilizer has been used and will explain in detail all matters pertaining to its use. All interested parties are advised to watch for further announcements concerning this field day.

Motor Party from Iowa

The motor party which had been visiting here with the McLaughlin family for about a week, left Tuesday morning for their home at Des Moines, Iowa. The party consisted of Rev Allan Bishop and Mrs Bishop, Mr and Mrs Van Dyke Clingman and son Allan. The party had 2521 miles on their motor meter when they arrived here, coming up thru Portal to Saskatchewan, where the party made a short visit with relatives. This was Mr Bishop's first visit this far North, and he remarked on our temperate climate, stating it had been about 100 in the shade at his home when he left. He also remarked on the splendid crops he had seen in Alberta.

Here and There

The Nova Scotia Dairyman's Association will hold their next annual convention in 1933, at the Cornwallis Inn, Kentville, N.S.

Shipments of celery to Canada this year from Bermuda totalled 25,000 crates in contrast to last year when the shipments were virtually negligible.

Eastern Steamship Lines, Inc., had heavy traffic on an excursion from New York to Nova Scotia on the occasion of the first trip in June of the S.S. Acadia from New York to Yarmouth, N.S.

Railroad transportation is an essential economic function on this continent and given reasonably free rein should speedily show good recovery using it to increase buying of materials and employment of labor, says the Greenville, (S.C.) News editorially.

Total production of honey in Canada in 1931 amounted to 37,667,297 lbs. valued at \$4,688,094. Ontario led the Dominion with a production of 12,000,000 lbs. with Manitoba second with 2,477,470 lbs., and Quebec third with 5,433,400 lbs.

Ten thousand rainbow trout fingerlings have been deposited in the Fraser River at June, following 7,500 fingerlings deposited last year. The previous experiment was so satisfactory that the present action has been taken and if success still attends these efforts, the Fraser River Bungalow Camp will have added rainbow trout to its already well diversified angling attractions.

Bob Jarvis, globe-trotting New York Sun columnist, is back in his beloved British Columbia, having recently arrived from Honolulu aboard the Empress of Canada of the Canadian Pacific fleet. He proposes to spend some time on fishing expeditions both in the province and also in the Rockies where he will meet Mr. H. C. Cobb and Courtney Riley Cooper, also famous American publicists.

Tourists spent almost one million dollars for every working day in Canada last year, a sum virtually equal to \$280,000,000, Cannington, Ontario, Glasgow points out and claims that this puts it into the class of big business which should be carefully fostered. Commenting on the same subject, the Nelson, B.C., News states that there are numbers of small towns throughout Canada which have not yet realized what the tourist business could do for them.

Evidence of the growing popularity of the Canadian Pacific Railway low rate bargain return trips, inaugurated this year, was again furnished by the success of the Quebec Province and Montreal excursion to Toronto and Niagara Falls, June 17, when no fewer than 2,500 Quebecers took the trip in four special cars on the Friday, returning the following Sunday night. His Honor the Mayor of Toronto issued a hearty welcome to those making the trip.

The thirty-two business and professional men and women from the British Isles now touring British Columbia under provincial government auspices found Victoria much to their liking and quite up to advance notices of being the most "English" city on this side of the Atlantic. They were particularly impressed by the beauty of the formal gardens at some of the homes they inspected, especially with the famous Butchart Gardens. They are travelling by Canadian Pacific Railway.
